To Whom it may concern

We have made use of some of the security services of SSC over the past few years and have always found them to be highly professional and efficient. They offer honest advice with no hidden agendas. Any matters that are of concern are dealt with promptly. We have received good advice and guidance from SSC. Should you have the need for these types of service we would highly recommend their organization.

Should you require any additional information, please do not hesitate to contact us.

Yours truly
